

BLADE SERVICE TECHNICIAN

Suspendem's rotor blade inspection and repair service sector is growing and we are looking for qualified Blade Service Technicians. Suspendem has one of Canada's most experienced up-tower blade services teams. We operate across Canada and are looking for experienced technicians. Ideally, you have up-tower blade service experience, blade factory experience, and/or wind turbine experience and a background in composites.

As a Blade Service Technician you will be expected to:

- Perform minor and major composite repairs on a variety rotor blades
- Perform interior and exterior rotor blade inspections
- Complete inspection / repair reports
- Operate suspended platform (training provided)

Blade Service Technicians must be:

- At ease with work at heights (up to 100m)
- Willing to travel (mostly in Canada: Ontario, Quebec and Maritimes, but other places possible)
- Willing to take training (i.e. confined space, work at height, rope access etc.)

Suspendem offers:

- Excellent training and career advancement opportunities
- Competitive wage with perks for loyal staff members
- Living out allowance for jobs away from home
- Opportunity to work in an amazing environment with a young, dynamic and fun team
