

WIND TURBINE TECHNICIAN

Suspendem's wind turbine inspection, repair and maintenance service sector is growing and we are looking for qualified Wind Turbine Technicians. Suspendem has one of Canada's most experienced up-tower wind turbine service teams. We operate across Canada and are looking for experienced technicians. Ideally, you have up-tower turbine maintenance service experience.

As a Wind Turbine Technician you will be expected to:

- Perform interior and exterior inspection, repair and maintenance of wind turbines
- Complete inspection / repair reports
- Operate suspended platform (training provided)

Wind Turbine Technician must be:

- At ease with work at heights (up to 100m)
- Willing to travel (mostly in Canada: Ontario, Quebec and Maritimes, but other places possible)
- Willing to take training (i.e. confined space, work at height, rope access etc.)

Suspendem offers:

- Excellent training and career advancement opportunities
- Competitive wage with perks for loyal staff members
- Living out allowance for jobs away from home
- Opportunity to work in an amazing environment with a young, dynamic and fun team
